

Call for Submissions ~ due January 31, 2021

(for presenters of the 10th International Conference on Education & Social Justice)

Guest Co-Editors: Dr. Kerry Soo Von Esch and Dr. Michelle Bryan
Consulting Editors: Dr. Kevin Kumashiro and Dr. Carol Batker

We invite manuscripts for a journal special issue that further examines the conference theme of *Critical Conversations about Movement Building for Equity and Justice in Education*, and in particular, that develop our collective capacity to critically self-reflect, collaboratively theorize, and courageously build. What does it mean, in this historical moment, to advance equity and justice in education as a form of movement building? How do we both collectively dive into and critically examine the paradoxes, presumptions, and promises of education as a public good and a core institution in a democratic society? This publication will be a vehicle to share the work of the conference and these conversations with a wider audience.

INFORMATION SESSION ON DECEMBER 5: To learn more about this exciting opportunity, join the co-editors Kerry, Michelle, and Kevin for an Information Session on Publishing Your Conference Paper on Saturday, December 5, 12:00-12:30 p.m. Pacific Time (be sure to adjust for your time zone!).
